

Drupal SUMMER BARCELONA

2017

30 JUNE - 2 JULY

ABOUT THE EVENT

Drupal Summer Barcelona is a new event organised by the Catalan Drupal community which aims to promote the use of Drupal.

We created this event with the ultimate goal to turn it into an annually recurring happening. Barcelona is second to none as a host city, given the exponential growth of the local IT sector combined with the strength of the brand Barcelona as an event destination. This gives us the opportunity to promote the use of Drupal locally and to interconnect businesses, agencies, developers, designers, project managers, users and other professionals.

Support developers, designers and drupalistas during 3 days of sessions, sprints, trainings and social activities.

The event venue will be the Citilab:
Plaça Can Suris s/n
Cornellà de Llobregat, Barcelona.

ORGANISATION

The Drupal Summer Barcelona is being organised by the Catalan Drupal community: Drupal.cat; the community of Drupal users in Catalan language. By 'user', we mean any person who, one way or another, makes use of Drupal. Therefore, any person interested in this CMS, no matter their knowledge level, can be part of this community and play an active role.

The event organisers is formed by volunteers only, without retribution, with the sole purpose to promote Drupal

Drupal.cat was established in 2008 as a non-profit association in order to provide support to the activities of the local Drupal community.

SPONSORSHIP

The Drupal Summer Barcelona aims to keep cost to a minimum amount that guarantees the viability of the event. The rental cost of the conference space as well as the travel expenses of prominent speakers will be funded through the revenue of ticket sales. However, there are costs associated with coffee breaks and breakfasts, catering services to compensate for the shortage of gastronomic offering in the area and other services, which won't be possible without sponsorship.

Sponsorship will give you access to the attending technology community and provide visibility to the very active Drupal community. But above all, it allows us to organise a better event with more services, which will help us put the foundations in place for an annually recurring event. In short, sponsoring this event is investing in the future of Drupal.

100€

Your logo on the web

Your logo on all printed material

Possibility to distribute merchandising among the attendees

1 ticket

SPECIAL SPONSORS

Do you want more visibility? This year we offer new sponsorship options, such as the food that was so successful last year.

LUNCH

500€

(3 available)
